

OMAS Yearly Banquet minutes

President: Scott Nagler	Vice President: Richard Klass
Treasurer: Cliff Yee	Secretary: Phil Theodoseau
Director Field Maintenance: Chris Dolan	
Director Safety Officer: Michael Yaukey	

Date: Feb 21, 2026, at The Spaghetti Factory in Tanasbourne

The OMAS banquet was a successful event attended by 28 members. Those who were accompanied by their spouses appreciated the diverse meal options provided. The dinner featured Caesar salad, a choice among three varieties of Italian pasta, and dessert. Festivities commenced at approximately 7:00 pm with the collection of raffles and door prizes. Special appreciation is extended to Cliff and his wife Kathy for managing the collection of banquet fees, club dues, and raffles. In recognition of their ongoing support, all spouses received a chocolate favor and a rose as tokens of gratitude for their contributions throughout the year. Their continued encouragement is vital to enabling club members to participate in activities and pursue their building projects.

At about 7:15 pm, Scott reviewed the accomplishments of the 2025 year. The club mourned the loss of Dave Olsen, a valued member who played a key role in field improvements, equipment maintenance, painting, and construction of flight benches, among other contributions. His dedication transformed OMAS field into one of the premier locations for flying and boating radio control models. Dave's passion for the hobby was evident in his extensive collection of radio control planes. Following his passing, OMAS organized two major auctions featuring over 50 new and used aircraft from his estate. Scott offered sincere thanks to all members who assisted with organizing these auctions in honor of Dave Olsen.

To conclude, Scott organized a raffle featuring fantastic door prizes, including a Dave Olsen transmitter and a Top Flight Corsair kit. The banquet had over \$1,000 worth of prizes awarded, making it an excellent evening for the lucky members who took home those rewards.

Vote for the 2026 Board of Directors.

The proposed new board members for 2026:

Scott Nagler President,

Rich Klass Vice President,

Cliff Yee Treasury,

Phil Theodoseau Secretary,

Mike Yaukey Director Safety officer,

Chris Dolan Director Field Maintenance. **Approved**

Note: OMAS is looking for candidates with Marketing or Recruitment experience to fill an open director role.

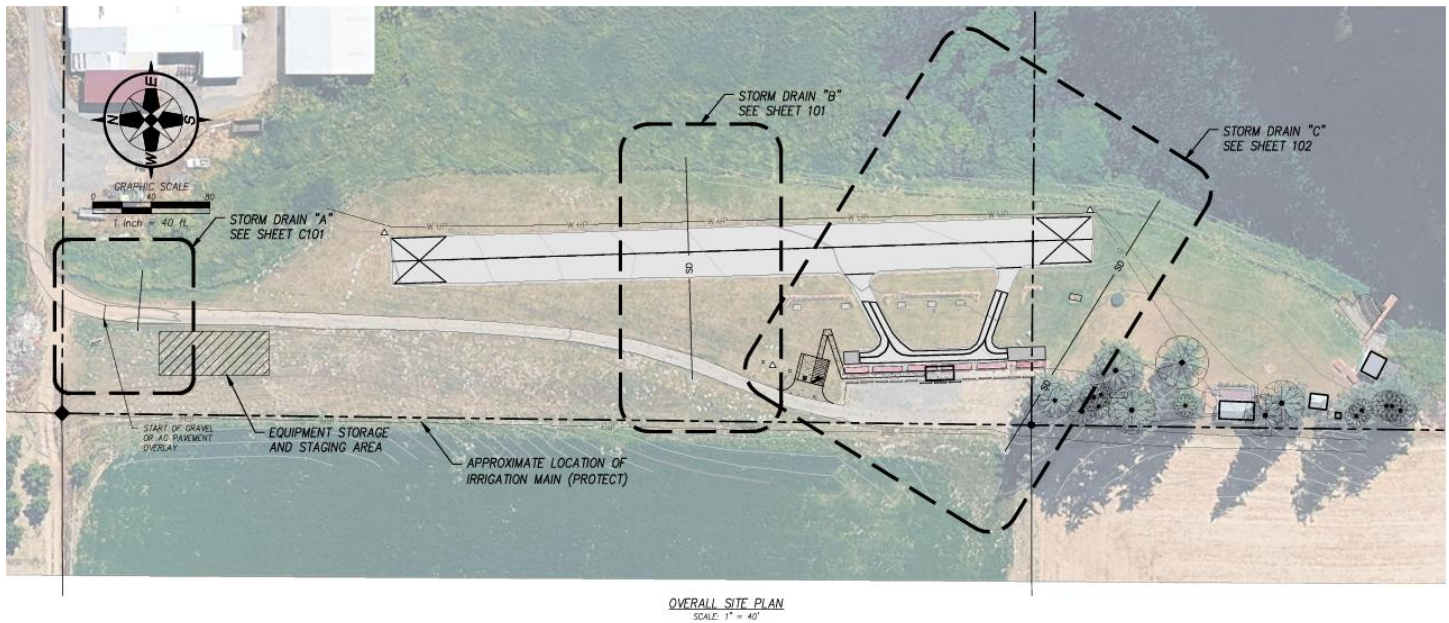

Financials:

Cliff presented the 2025 OMAS budget and banquet summary. OMAS has 55 members for 2026, During the 2025 year OMAS has received an AMA TAG grant, a flight simulator, and \$50,000 from the Dave Olsen memorial fund for field upgrades, ensuring a solid budget for 2026.

Bank Accounts at Year-End				Wells Fargo Accounts	Dave Olsen Projects Restricted Account	Net OMAS Accounts

		Ladies flower & candy, etc.		\$52.65	
		Expenses total		\$781.91	
		Net profit (loss)			\$465.59

Field Report:

As part of Dave Olsen's estate request, he asked Phil and Cliff to oversee major field improvements to maintain the OMAS field long-term. Phil summarized the planned work:

- Watershed drainage
- Runway repaving
- Driveway upgrade and paving

Three new drainage pipes will be installed to channel runoff into the stream or pond, as indicated on the geo-survey map. The runway, driveway, and parking lot will all receive new asphalt. There are also plans for a memorial bench with ADA access ramps. The project is in its final stage of obtaining contractor quotes, with completion expected by June 30, 2026. Field use will be intermittently affected during construction; please monitor bulletins for closure updates. Thank you for your support.

- One suggestion that was brought up is to add fire pit to the field. This request will be reviewed at the next board meeting.

Other News and Events:

- Next board/club meeting scheduled for Tuesday March 3 at 6:00pm, site to be determined.
- OMAS will start up with 3 Saturday of each month a member flying get-together. This brings the members to show off their new planes and flying skills.
- As we tinker in our workshops, waiting for flying weather to come around once more, what better way to spend our time than building an aircraft, boat, or car that raises awareness for an incredible cause? That's what this contest is all about: raising awareness for breast and gynecological cancers and honoring our loved ones and fellow AMA members who have been impacted.

Here's how the PRG-Themed Build Contest works:

1. Grab your favorite plans, kit, or scratch-building materials
2. Build your aircraft, boat, or car to your liking
3. Finish and decorate your build, ensuring that you include the PRG logo on your finished product
4. Submit your finished build by August 18 for the chance to win incredible prize packages

The meeting concluded at approximately 8:03 PM.
